

# What to Bring With You

If you're fishing in the spring or fall, or even early summer, breathable waders are a must, along with the technical clothing to go along with the system. Summer time temperatures can get well into the upper 90s allowing for wet wading during the day. A good rain jacket is essential also.

## Checklist for Your Guided Fly Fishing Trip:

Courtesy: [Stillwater Anglers Fly Fishing Guides and Outfitters](#)

- Polarized sunglasses: polarized lenses are a must!
- Rain gear (thunderstorms can happen at any time).
- Fleece jacket and pants, particularly in the spring and fall and later in the summer.
- Wet wading gear-quick dry pants or shorts.
- A good hat.
- Sunscreen and chapstick.
- Camera.
- Fishing license: you can pick this up ahead of time or at the shop the day of your trip.

If you have waders and/or boots of your own - feel free to bring them! Otherwise, we'll provide them to you.

As a full service retail fly shop and outfitters, Stillwater Anglers provides trips tailored to meet your individual needs and desires. We give you a total quality outdoor experience. Basic fly fishing instructions are included, and additional lessons can be arranged. We have guides available who are dedicated to working with avid anglers, novices, and children alike.
